MEMORANDUM FOR: Write Your Own Principal Coordinators and the  
NFIP Servicing Agent

FROM: David I. Maurstad  
Acting Director  
Mitigation Division  
Emergency Preparedness  
and Response Directorate

SUBJECT: Revised Procedures on the Conversion of a Standard Rated Policy to a  
Preferred Risk Policy Due to a Map Revision, Letter of Map Amendment, or  
Letter of Map Revision

On August 10, 2004, FEMA issued an Underwriting Bulletin outlining new procedures regarding the conversion of a standard rated policy to a Preferred Risk Policy (PRP). These new procedures, made effective October 1, 2004, were established to encourage property owners to maintain coverage when their buildings were removed from a Special Flood Hazard Area due to a map revision, Letter of Map Amendment (LOMA), or Letter of Map Revision (LOMR).

We are now allowing additional incentives to agents and companies when a standard rated policy is being rewritten to a PRP due to a map revision, LOMA, or LOMR. WYO companies will be permitted to retain the full expense allowance, which includes the agent's commission, and Direct Business agents will retain the commission, previously paid on a standard rated policy, so long as the standard policy being canceled is rewritten to a PRP. The WYO companies and Direct Business agents will also receive an expense allowance and agent's commission, respectively, on the replacement PRP. These new incentives will apply if the map revision, LOMA, or LOMR is effective on or after February 1, 2005.

Attached are new requirements for implementing these changes. Attachment 1 provides the Summary of Changes, and Attachment 2 includes changes to the *Transaction Record Reporting and Processing Plan*.

We understand that these changes will necessitate system modifications to properly process and report these transactions to the NFIP Bureau and Statistical Agent. For this reason, we have developed an interim procedure (see Summary of Changes), to allow the companies to process the cancellations prior to the implementation of the final procedure.

If you have any questions, please contact your Program Coordinator.

## SUMMARY OF CHANGES Effective February 1, 2005

### 1. Cancellation Procedure

- New cancellation reason code 24 is established to cancel/rewrite when converting a standard rated policy to a Preferred Risk Policy (PRP) as a result of a map revision, LOMA, or LOMR. Under cancellation reason code 24, the expense allowance is retained by the WYO company on both the standard policy being canceled and the PRP being written. Likewise, the NFIP Direct agent's commission is retained on both the standard policy being canceled and the PRP being written.

The following conditions must be met to use cancellation reason code 24:

- The request to cancel/rewrite the standard policy must be received during the policy term or within 6 months from the policy expiration date.
- The standard policy has no open claim or closed paid claim.

The building and/or contents coverage on the new PRP must be equal either to the building limit and/or contents limit issued under the standard policy, or to the next higher limit available under the PRP if there is no PRP option equal to the standard B, C, or X Zone building and/or contents limit.

- Cancellation reason code 22 is revised and is to be used only to cancel/rewrite policies that are misrated. This includes policies written in error as standard B, C, or X Zone and that were eligible to be written as a PRP at the beginning of the policy year.

Companies may use cancellation reason code 22 to cancel/rewrite policies due to map revision, LOMA, or LOMR until they have implemented cancellation reason code 24.

See changes to the Financial Reporting Procedure, item 2 below.

### 2. Financial Reporting Procedure

Transition Reporting with Cancellation Reason Code 22:

- The Transition Financial Reporting provided below should be used for reporting the WYO company expense allowance and, for NFIP Direct Business, the agent's commission being retained when canceling and rewriting a standard rated flood insurance policy to a PRP as the result of a map revision, LOMA, or LOMR.

Transition reporting requires that the WYO company and the NFIP Servicing Agent include an additional Excel spreadsheet with the monthly Financial Exhibits to report the cancellation premium included in Net Written Premium and which resulted in a reduction to the Expense Allowance. The Transition Financial Reporting will calculate and debit (add back) the Retained Expense Allowance. The Retained Expense Allowance is reported as a debit amount on the Financial Statement Exhibit IV, Line 426, Expense Allowance Adjustment.

Provide the following information:

Number of Canceled Policies	_____
Total Cancellation Premium	_____
Expense Allowance/Agent's Commission	_____%
Retained Expense Allowance/Agent's Commission (Line 426)	_____ (Premium x ____%)

Final Reporting with Cancellation Reason Code 24:

- WYO Companies that have implemented the new cancellation reason code 24 should continue to include the cancellation premium in Net Written Premium. However, these WYO companies should report the Retained Expense Allowance on the Financial Statement Exhibit IV, as a debit on Line 426, Expense Allowance Adjustment.

The Transition Financial Reporting form is no longer required.

**3. Editing of Preferred Risk Policy Eligibility**

- The NFIP Bureau and Statistical Agent will develop a process to ensure that statistical errors are not generated on new PRPs written as a result of a map revision, LOMA, or LOMR.

**4. Flood Insurance Manual**

- The NFIP *Flood Insurance Manual* will be revised to reflect these changes at a later date.

Premium from the canceled policy will be applied to the PRP with the difference refunded to the policyholder. No 30-day waiting period will apply to the PRP. The WYO company will retain the full expense allowance from the canceled standard policy and be credited with the expense allowance on the new PRP. The NFIP Direct Business agent will retain the full commission from the canceled standard policy and be credited with the commission on the new PRP. The WYO companies are responsible for canceling and returning the premium for the current and 1 prior policy year, provided that it was the insurer for that period. If another NFIP insurer was the insurer for the prior policy year, the insurer for that year will be responsible for refunding the premium.

The NFIP Bureau and Statistical Agent will refund the premiums for the additional prior years beyond the current and 1 prior policy year.

50. **Policy Not Required by Mortgage.** This provides a means to cancel a policy when coverage was required by the mortgagee for a closing and it was determined that the property was not located in a Special Flood Hazard Area (SFHA). As a result, coverage was not required by the mortgagee. This cancellation reason can only be used to cancel the initial term. The cancellation effective date is the date the cancellation request is received by the writing company. FEMA Out-As-Shown determination is required to cancel the policy.
